Dear Property Owner(s),

Subject: Property Recording Ordinance

In 1993, the City adopted an ordinance requiring all property owners to record their ownership and certain other information with our Department. Exceptions to this recording requirement include personally ***owner-occupied 1 and 2-family residential properties and condominium units*** where the ownership is recorded as such with the Milwaukee County Register of Deeds and this is the owner's year-round primary residence. Other exceptions are jails, convents, monasteries, parish rectories, parsonages and similar facilities, hospitals and residential facilities licensed by the city of Milwaukee or the state of Wisconsin or government-owned buildings.

Additionally, the following are exempt from the property recording ordinance:

- 1) Newly constructed residential and commercial buildings until actual occupancy of the units in the buildings commences;
- 2) Residential and commercial buildings owned for less than 15 calendar days prior to the sale or transfer to new owners; however, the holder of the property during those 15 days must file a seller notification for each property sold or transferred; and
- 3) Vacant lots.

While the information will be used primarily to notify owners of building code violations, it may also be used to inform owners of property-related ordinance changes when they occur. Many owners have already benefited from the use of the recording information. Additionally, the information is available to the Fire and Police Departments to contact you about your property if necessary. This information is available on the City's home page (www.city.milwaukee.gov) on the internet. Select the **Get Property Information** link. Next, enter the address, click SUBMIT and then scroll down to (Property Recording, Violations, Service Requests, Permits) to view information. Click on the "blue colored" (See Details) to load the information. Anything in "blue" can be drilled down for more information.

Failure to comply with the Property Recording ordinance may result in:

- 1. DAILY FINES of \$150 to \$5000 which can be placed as a lien on your property.**
- 2. Tenants may REDUCE THEIR RENT BY 50% in unrecorded properties that have other health or safety violations.**
- 3. A monthly \$76.05 assessment may be added to your tax bill for failure to comply. This fee includes a 1.4% Training and Technology surcharge.**

Please comply with the ordinance by promptly filling out and returning the application form. Forms are available on-line at (www.milwaukee.gov/dns/forms). If you have questions ***after you have read all the instructions*** that follow, call (414) 286-8569. Thank you for your cooperation.

Sincerely,

Art Dahlberg
Commissioner Neighborhood Services

PROPERTY RECORDING INSTRUCTIONS

PROPERTIES WHICH MUST BE RECORDED

All persons owning properties must record them with the Department of Neighborhood Services. Owner occupied one and two family residential properties and condominium units that are recorded with the county Register of Deeds as such, have the option to record with DNS at no cost if they wish. For the purpose of this ordinance, a “property” is defined as one or more buildings on a single taxkey number. (Residential and non-residential properties must be recorded on separate applications.) Only similar properties with the same transfer/sale date may be included on one application.

If the ownership information is not identical, a separate application is required for each property. (For example, if Jane Smith owns one property by herself and one property with her father, she must submit two applications; one application for the one she owns by herself and one application for the one she co-owns with her father.)

A separate application is required for each type of ownership. (For example, if Jane Doe is titleholder for one property and is a land contract purchaser for another property, she must submit two applications; one application for the one in which she is titleholder and one application for the one on the land contract.)

SELLER’S RESPONSIBILITY

Sellers must notify the Department of a new owner’s name and address within 15 days of the sale or transfer of ownership interest, by filing a Seller Notification form (free of charge). **The Seller Notification form is the only way to notify the Department that you no longer own the property.** Only one owner is required to sign the form. If you no longer own the property in question, you may download a form from our web site

(www.milwaukee.gov/dns/forms)

and go to the Department of Neighborhood Services Property Recording page at

(www.milwaukee.gov/propertyrecording).

You can also call (414) 286-8569 to request a Seller Notification form.

SECTION 1: Filing an Application

The fee for filing an application is \$81.12, except:

- 1) If previously owner occupied – \$40.56 fee
- 2) If recorded within 15 days of transfer of title – \$40.56 fee
- 3) If owned by same entity since October 1, 1993 – \$40.56 fee
- 4) If currently owner occupied – No Fee.

These fees include a 1.4% Training and Technology surcharge.

An *Update to an Existing Application* is required when:

- there is a change of name, address or phone number for any person/corporation listed on the application, a change in registered agent, operator or preferred contact; or
- the sale or transfer of ownership is between husband, wife, father, mother, son, daughter, brother, sister, grandfather, grandmother, grandson or granddaughter. The previous owner must have recorded the property prior to transfer/sale; or
- there has been a satisfaction of a land contract; or
- there has been a termination of a land contract; or
- an owner’s name needs to be removed due to a divorce, death, or other circumstances.

There is no fee to update an existing application. The update must be filed within 15 days of the change.
